Introduction of sacred affinity connection items

Jetsun Pema Lingpa handicraft copper statue

As indicated by H.H Gangteng Tulku Pema Lingpa, Pema Lingpa Lineage is the most important lineage of Nyingma tradition in Bhutan. However, holly statue of Jetsun Pema Lingpa is extremely rare. Owing to this, the Centre specially engaged Nepal's most famous artist Mr. Shakya Suraj to personally supervise the making of these precious statues. It is hand-moulded and made with specially refined copper. Every statue is unique in its own way. The process was thus very time consuming with great refinement.

This is a rare and great opportunity as the inner storage of the statue contains several lineages' sacred items blessed by H.H. Gangteng Tulku and Tulkus of Buddhist College of Gangteng. There are only 7 pieces available in total. Due to its rareness and unique art work , it can be kept as heirloom for devotees with strong faith.

tsa-tsa for the "thousand-arm and thousand-eye Avalokitesvara" and "boundless light buddha" made of sacred earth substance

In 1645, the second Gangteng Tulku, H.E. Tenzin Legpai Dondrup was born and many auspicious signs followed. Legendary Life of His is known for his great determination and diligence in practice, he could see visions of tutelary deities and many times displayed His unimpeded magical power, thus showing the signs of his deep realization, he had met Guru Rinpoche and Khandro Yeshey Tshogyal in his vision. He had also helped stop the war between Tibet and Bhutan several times. He was well respected by people.

For the sake of the practitioners in Gangteng village, Tulku had collected varieties of sacred materials/goods, oath substances, accomplishment goods, amrita, relics, termas and precious jewelries etc ... built a thousand-arm and thousand-eye Avalokiteshvara statue. The statue had

been blessed over and over again over the past few hundred years especially on special occasions with non-stop chanting by monks for days and holy ceremonies were being held. It is one of the most precious statues treasured by Gangteng Gonpa. Its unsurpassed blessing power is beyond description.

Bhutan was badly affected by the Nepal earthquake in 2011, the avalokiteshvara statue collapsed as a result. During the restoration works of the holly status as supervised by His Holiness, a portion of the sacred-earth substance originated from the holy statue was brought to Taiwan center for safe-keeping. The center was specifically instructed to safe-keep it in anticipation of later usage which is envisaged to bring great benefits for the dharma and the sentient beings.

With the auspicious occasion that H.H Gangteng Tulku giving the complete Pema Lingpa Transmission in Asia for the first time, and with the permission granted, the Taiwan Center had made tsa-tsa of “thousand-arm and thousand-eye avalokiteshvara” and “Buddha Amitayus” from the mixture of various holy substances including the “sacred-earth substance” (originated from the thousand-arm and thousand-eye avalokiteshvara statue), “sacred earth” from other holy places, the dharma pills refined/produced during the “Great compassionate red chenerzig” Drupchen , “Phurba” Drupchen and other precious sacred substances . These items will be made available as “affinity connection” items after being blessed by H.H Gangteng Tulku. Do treasure this rare opportunity.

Pema Lingpa lineages’ uncommon prolonged-life “Dorje Threngwa” precious vase

Among the many of the quintessential teachings given by Guru Rinpoche to Princess Pema sel, the most ultimate of the longevity “oral instruction” practice was the uncommon “prolonged-life Dorje Threngwa”. The merits and powers of the “Dorje Threngwa” is beyond imagination. Besides the merit of life-prolonging , it also possess the profound benefits of wealth accumulation, enabling the practitioners to have the freedom of the human body to practice diligently.

The sadhana specified that, precious jeweled vase is a wealth-accumulation fortune collector, hence has to be made out of such materials. Accordingly, The Centre has adopted the specification of that in the National Palace Museum in Taipei, matching with coral red which is the most challenging color to blend, to make the vase. The vase will become a classic piece to pass down from generation to generation. Moreover, the fortune substances contained in the vase are selected by H.H Gangteng Tulku. Besides its ability to accumulate wealth, the vase can also accomplish activity of magnetizing. It can also be of great help to increase social status/power, improving inter-personal relationship and assist in career achievements etc. In addition, precious vase is same as deity itself, hence, it is also a means to accumulate our merits by enshrining the precious vase.

“Seventh life brahman long life precious amrita” dharma pills

This “Seventh life brahman long life precious amrita” is recorded in Dzogchen Trantra as “liberation upon tasting”. It is unsurpassed skillful-means that non-practitioners , and even people who committed great sins would be liberated upon tasting it.

This “Dorje Threngwa” boundless-life buddha is one of the most important “life prologation” deity of Pema Lingpa tradition, it was also the deity practiced by Guru Rinpoche in Maratika of Nepal and accomplished the state of an immortal pure awareness holder.

This long-life dharma pill, using seventh-life brahman pill as its main sacred substance ingredient, coupled with other tibetan medicine. It was being blessed by the retreat masters and yogis with the million recitation of mantra for its completion. It is able to help the practitioner cleanse the nadis, pranas and bindus and purify the faults of blockages and defilements etc. so as to provide practitioners with favourable conditions in their practice path enabling them in gaining longevity, wealth accumulation and gaining strength etc. -- these make the dharma pill a valuable and sacred item.
